

Fourth- through seventh-graders put their robot know-how to the test at MU's Lego Robotics Camp

[Columbia Missourian, 28 Mar 07](#)

(ANDREI PUNGOVSCHI/Missourian)

Lily Faren and Nicholas Orazio get ready to race their Lego vehicles in the snail race.

Bennett Rennie, lower right, watches other children build their Lego vehicles before the snail race at the second day of the MU College of Engineering's Lego Robotics Camp on Tuesday. The camp aims to increase kids' interest in science, industrial technology and engineering through hands-on, challenging design projects.
